

LOCAL MATTERS.

WEATHER PROBABILITIES.—War Department, Office of the Chief Signal Officer, Washington, D. C., October 24, 1876.—In the Middle States rising, followed by a temporary fall in the barometer, cool north-west winds, backing to west or southwest, and clear or partly cloudy weather.

IMPORTANT TO CIDER SELLERS.—The following correspondence will prove of interest to growers and others dealing in cider. It is asserted that many parties in this city are selling the article without a license, and thereby injuring themselves liable to a fine:

ALEXANDRIA, Va., Oct. 20, 1876.
My George Duffey, Commissioner of Revenue:
DEAR SIR:—Does not the provision of the act requiring a liquor dealer's license, "that no person shall sell or give away any spirituous or malt liquors in this State," require a license to sell or give away any spirituous or malt liquors in this State? I am, therefore, very respectfully,
JOSEPH HOPKINS.

OFFICE OF COM. OF REVENUE,
No. 5, MARKET BUILDING,
ALEXANDRIA, Va., Oct. 21, 1876.

Joseph Hopkins, Esq.:
DEAR SIR:—Yours of the 20th received. You ask the question as to whether the privilege of selling cider requires a liquor dealer's license. Dealers in cider are certainly required to take out an additional license for that purpose.

Section 29, Act approved March 27, 1876, requires all dealers in wines, and spirits, malt liquors, or any mixture of them, to take out a liquor merchant's license. The later clause of the section says: "Nothing in the preceding section shall be construed to prevent manufacturers of cider from selling the same to be drunk at the place where sold, or to prevent others from selling down side cider at any place in the county in which it is manufactured, without paying any tax." Section 30 of the same act requires all dealers in liquor, beer, or ale, to have a license printed on each label of each bottle or can, and to have a copy of the same conspicuous place in the store or on the vessel sold, under a penalty not exceeding one hundred dollars. The act above referred to grants the privilege to the manufacturer, and not others, to sell cider to be drunk at the place where sold, and to pay no additional tax. Dealers in cider (other than domestic and made in the county where sold) are liable to the same penalties as if they sold wines and liquors without a liquor merchant's license.

Very Respectfully yours,
GEORGE DUFFEY,
Commissioner of Revenue.

BOY SHOT.—While a small white boy, named E. Graham, and two small colored boys, named Dick Ford and John Harris, were out playing on the common near Colliers, this morning, Harris became tired and started to go home, but was resisted by his companions, and when he had gotten about half a mile from them, Ford fired a gun at him, the charge, however, passing over his head. Graham then, upon finding that with a pistol, the ball striking Harris on the left side of the neck and passing through the left cheek. Harris was conveyed to the house of Dr. French, who called in and dressed his wound, which is not serious. A warrant was issued for the arrest of Graham.

THE RAIN.—The drizzling rain, which commenced at an early hour yesterday evening, increased in force and volume as night came on, and by seven o'clock, came down in torrents. The streets were thoroughly washed, and Cameron Road and Hoof's Run rose very high, so high in fact as to be impassable for a time. No damage was done so far as heard from, save the flooding of a few cellars. To day, contrary to the expectations of the weather prophets, cleared and beautiful, and has been a most pleasant autumn day, just such as to be agreeable and not enough to cause chills.

RETURNED TO ENGLAND.—Mr. Peter Patman, who came to this country from England some fifteen months since and raised a farm on Cameron Road, near this city, started yesterday with his family on their return to England. Mr. Patman thought the affairs of the working men were too hard for him, and preferred to return to his old home. His experience has been contrary to that of all the other emigrants, who have settled in this portion of the country, among them many of his relatives, who are among the most thrifty and successful farmers and market gardeners.

OUTLET LOCK.—The new outlet lock of the C & O Canal, above Georgetown, originally intended among other things, as a safe and a tank of Alexandria, seems to have no end of troubles. It has, at last, been determined to substitute a more and heavier works, and they are now being put in. The iron shell which holds the turbine wheel, alone weighs 14,000 pounds. It remains to be seen whether the lock will prove a success or whether the new machinery.

NO MEETING.—A question having arisen as to the legality and practicability of certain questions connected with the special election for a Councilman from the 23rd ward on the same day as the Presidential election, it is probable that a proposition will be made in Council to night to postpone the special election until some future day. In view of this proposition no primary meeting will be held by the conservatives of the ward to night.

THE PRINCESS STREET SEWER.—The rain last night caused a considerable wash at the upper end of the new tank, corner of Princess and Pitt streets, and caused the new earth which had been filled in there to settle considerably. The water also backed up in Pitt street above the mouth of the sewer, rising higher than has been known for some time. Cars were put to work this morning along the wash.

BANQUETING HALL.—Workmen were engaged to-day, in commencing the fitting up of the large frame building on Lee street, in the rear of the Mansion House for use as a ball room. Two galleries will be put up in the room and other alterations made to contribute to the comfort and enjoyment of the guests.

SENT ON.—Alphonso Arrington, who was arrested in Washington on Saturday, for shooting at Sonny Ward, as mentioned in yesterday's Gazette, was tried in the Police Court, this morning, and was sent on for the action of the grand jury. He pleaded guilty to the assault, but denied the intention to kill Ward.

MORE NEW GOODS ADVERTISED BY SLAYMAKER CO.—To-day, Hardy's day passes that new goods are not opened by them. Their wholesale trade is of large quantities, which enables them to buy by the package of first hands, and on that account sell cheaper at retail as well as wholesale. Who selling is not the business, which they strike for particularly, but to cash buyers, or those whose credit is good enough to buy of them, they can and do sell very cheap, and as they will cut prices, a much larger assortment can be obtained in a small bill. It will pay country merchants to examine their stock.

Col. William Kilgour, of this city, left to-day for New Jersey, to take part in the canvass there, in response to very flattering invitations received from leading democrats there.

Local Brevities.

The City Council will hold its regular semi-monthly meeting to-night.

During the week ending Saturday 174 boats left Cumberland, carrying 18,910.18 tons of coal.

A letter addressed to Miss Robbie Turner, Front Royal, Va., is detained in the postoffice here for want of postage.

Persons desiring to attend the Conservative ball, at Warrenton, on the 27th inst., can make the round trip for one fare.

INSURER.—The grand jury in the Fauquier Court, at Warrenton, yesterday, found a true bill against Gloucester Cromey, colored, for obstructing a railroad. It will be remembered by the readers of the Gazette that Cromey had been indicted for obstructing the Virginia Railroad near Piedmont Station, and was afterwards arrested by the police in this city and carried to Warrenton jail. Captain Webster of the police force was one of the witnesses in the case. The trial of the case was postponed until next month.

THE CENTENNIAL EXCURSION for the benefit of the public school children of Washington, from Baltimore and Potomac R. R., commenced on the 24th of this month, and continues daily until November 4th inclusive. It is a most successful excursion, and any previous excursion from this city. Tickets are for sale at George E. French's book and stationery store, 95 King street.

Beau-tim. For prevention is better than cure. All Croup and Colds and such affections of the throat and lungs as lead to consumption are cured by Dr. BULL'S Cough Syrup.

A GUARANTEE that any one affected with consumption or torpid liver can be relieved by taking regularly, by directions, Simmons' Liver Regulator. It has been known to cure in hundreds of cases, and will do so again.

"As a general family remedy for dyspepsia, torpid liver, constipation, &c., I have never used anything else, and never know of any disappointed in effect, proving it to be a most perfect and reliable remedy of the stomach and bowels." W. J. McElroy, Mason, Ga.

It is prepared with the most pure, and is the only 75-cent article for 25 cents. The name is Wells' Bitter Root Powder.

As a result which probably be made in Council to-night, change the day for the election of a member of the Common Council from the 24th to the 25th of the month.

YACHTS FOR SALE.—Yachts for sale for the four days, including all the privileges, \$9; also 217, 218, 219, 220, including a number of boats, 10 cents.
oct 2-2

OSTER SUPPER.—A supper and other refreshments for the benefit of the St. E. Church South will be given under the auspices of the ladies of the church, at the Association Rooms, on TUESDAY, and WEDNESDAY, next, the 24th and 25th inst. A cordial invitation is extended to all.

ELECTION NOTICE.—A meeting of the Common Council, held on Tuesday, October 10th, 1876, it was ordered that an election be held at the quad voting place in the second ward, on the 24th of November next, to fill the vacancy in the Council caused by the resignation of W. W. Bennett, esq.

LIME.—Farmers, use what has been found to be the most reliable improver of the soil. Do not waste money on nostrums whose value, as manures, in comparison with lime, shows to be better advantage than the which-better of quicks compared with the remedial agencies of the skilled physician. You cannot restore as fertility by successive stimulants; you must use lime to render food available, thus the fibrous roots of plants cannot otherwise assimilate. It is lime followed by clover, that the soil gets back its nitrogen and the only food of the farmer is secured—good crops and full pockets.

WOOD-BURNED LIME.—Free from coal ashes, core sludge and magnesia, containing 92.41 per cent pure lime, throughly soluble, for sale unusually cheap.

The Turkish War.

LONDON, Oct. 24.—A Router dispatch from Constantinople says it is stated that Russia has already indicated her willingness to agree to a six weeks' prolongation, if necessary of a six weeks' armistice. It is hoped that an agreement will be reached on the basis of Turkey's acceptance of such an armistice as announced in the semi-official statement in this morning's Post.

A special from Pesth to the News represents that there is intense excitement there and strong hostility to Russia. In case Russia commences war it will be difficult for Austria to preserve neutrality.

LONDON, Oct. 24.—A dispatch to the Times from the Legation at Bucharest, is about to return from Philippolis, being convinced that the commission for the punishment of the perpetrators of the Bulgarian atrocities is a delusion and mockery. The worse criminals are regarded humane, and moderate measures are in disrepute. The old panic is renewed, and a most trustworthy gentleman has travelled with the utmost haste to Constantinople to inform the British ambassador that the Turks threaten new massacres, and have even appointed a day for beginning the slaughter.

A Vienna dispatch to the Times says not only from Constantinople, but from all the provinces of European Turkey there news of growing excitement among the Mohammedans of convulsions held in mosques and of armed insurrection. The Ministry is divided against itself, and the Sultan is too inexperienced to take the leadership of affairs. Thus the position is most favorable for Russia's diplomatic action. Gen. Ignatieff, the Russian Ambassador to Constantinople, may carry everything before him, or, if he fails, may induce such an outbreak of Mohammedan feeling as might justify almost any step on the part of Russia.

A Times' dispatch from Berlin states that a financial crisis of the most serious character is threatening in Russia. The public besiege the banking offices to sell Russian government and company stocks, but, as a rule, offers are declined. On the 18th and 19th insts. nothing was saleable at any price, and will have serious effects. Ignatieff's mission takes a warlike character.

A dispatch from Belgrade to Reuters' Telegram Company dated to-day, says: "It is reported here that the Turks have taken Djunis and Sarajewo. It is true. General Tchernichev's army will be in great danger."

LONDON, Oct. 24.—The Times in its financial article says only profound peace and a great revival of trade can prevent a financial catastrophe in Austria. Even with these doubts it is the hopes of the Austrian Financial Minister can be realized; that by 1878 the end of the period of difficulties will be reached.

Strike.

NEW YORK, October 24.—The strike of locomotive engineers on the Central Railroad of New Jersey which took place at 12 o'clock last night was pre-announced. At that time every train that was in motion between Scranton and Jersey City was run upon a siding and stopped. The locomotives were then abandoned by their drivers and the passengers on the trains were left to make their way as best they could to the nearest stations or accept the alternative of remaining all night on the cars. One account says the cause of the strike is the desire of the engineers to compel payment for work over the regular hours. They have been compelled recently to work more hours than heretofore. It is said and desire to be compensated for doing so. Another says it is because of a reduction on wages from \$100 per month to \$80 and \$55.

NEW YORK, Oct. 24.—A train for Philadelphia at 11:45 this morning on the New Jersey Central road, the track having been closed by the train and engines which had been left standing on it. The machinists in the company's shop have been employed, taking the place of the engineers who had struck. The company has arranged to send their passengers over the Pennsylvania road until their own trains are running.

Railroad Accident.
MIDDLETOWN, N. Y., Oct. 24.—An accident to a Centennial excursion train on the middle division of the New York Midland Railroad at Sandhurst, about 23 miles west of Middletown, last night, resulted in the death of one man and the quite serious wounding of six other passengers. The excursion train of twenty-eight cars, running in five sections, left Norwich at 2 o'clock p. m. yesterday, with 1,500 passengers.

Missouri Pacific Railroad.
ST. LOUIS, October 24.—The U. S. Circuit Court has made an order that upon the payment of \$50,000 cash and the execution of a properly secured bond for \$550,000 the Missouri Pacific Railroad be turned over to James Baker as trustee for Cornelius R. Garrison, and that a deed for the property be given to him by L. D. Thompson, master in chancery.

Summary.

—Gen. Sickles was nominated for Congress last night by the republicans of the Ninth district of N. Y.

—The trial of the Pennsylvania prize fighters at Salem, N. J., which was set down for to-day, has been postponed until Tuesday next.

—Thomas Ellis, the paying teller of the National Park Bank of New York, is a defaulter to the amount of \$36,000. He had been in the employ of the bank for eighteen years.

—The race for the Cambridgeshire, England, stakes took place to-day at the New Market Houghton meeting, and was won by Roseberry, with Hopton second and Liris third. Thirty-two horses ran.
